

Galgos make great pets!

I have been learning all about galgos!

Galgos are quiet, gentle dogs who enjoy the company of humans and other animals. Every year rescue shelters help hundreds of galgos that have been mistreated, neglected and abandoned at the end of the hunting season. Every single one is looking for a family to love and take care of them for the rest of their life.

Did you know?

- Galgos are descended from the ancient dogs of the pharaohs.
- Galgos are a type of sight hound.
- Galgos sleep for up to 18 hours a day!
- Galgos love to play, and only need three 20 minute walks every day.
- Galgos are used to living in small spaces, so can happily live in apartments.
- Galgos are very thin and feel the cold.
- Galgos make loving, loyal companions for adults and children.
- Galgos can live for 12-15 years.
- Galgos that are loved and cared for are happy galgos!
